Dear Kan: This is going to be short cause I haven't much time -
Hope you're at your destination (Baltimore) safe & sound now -
& that you're not too worn out - I got you letters from Kansas
City - too bad about the ticket & shoes but if you haven't
gotten them yet will you send the stamp back? - I'll
try at one of the Denver shoe stores again - it'll be
less fuss by mail - if you happen to have gotten them I hope
you got size $5\frac{1}{2}$ not 5 - 6 would be alright.

You left for Denver this morning - she asked again
about Miki going & made all sorts of derogatory
remarks - it's so obvious Miki isn't well that it hurts
still she thought she could go - My god! - anyway
Miki may go for examination at the doctor's suggestion
(this was why G. wanted to take her) at the beginning of Feb.
I'm going to suggest my going & see what happens -
I really feel I must meet the doctor & get information -
it's import. for me & not just for either Wah or Youi -
they want to go to do some shopping - that to me is
incidental.

Obasan is in the hospital - she's having trouble with gallstones again - the doctor (Higa) is taking X-rays today to decide whether it's best to operate or not. Wah went to see her yesterday - said she looked very tired.

Shiro Abe is the chairman of the council now. I notice Ernie hasn't been reelected from his block.

Oh - you're going to feel real bad but, Honey, I think you lost your leather jacket - Dick noticed one hanging in the men's room & then after 3 days or so decided maybe it was yours & came to ask me - yours isn't anywhere around here - Dick went to see Kumamoto & also looked all over for it but it isn't around anymore.

I'm endorsing several letters that came - I got one from Jean Atthome - doesn't say much but it was good to hear from her.

Must close now but will write tonight -
lots of luck - & love
Sally -
We miss you so much.
