

Monday -

Jean Kans: your letter about the courts, Guilford, Myer
- well, in fact the whole U.R.A. in Washington
came & I must say you're doing yourself
damage ————— Please ————— for heavens
sake ~~don't~~ write to Myer —
especially ~~not~~ write anything about his
field workers — Honey, you must realize
we are dependent on the U.R.A. —
no matter what happens they are the
best criticism — they have a job
that though we may feel isn't being done
too efficiently in many respects — ~~it~~
is their business to conduct as they
feel fit — you're an individual not
officially representing any group —
you have a family you have to think

about — you can be made a complete
fool for saying & doing things they feel
are not part of your business — & then
where are you?

yes, I'm upset & why shouldn't I
be? I'm glad you write me all
these things though.

I told Wah about it simply because
there's no one here for me to talk to & I
have to talk to someone — I'd like you
to see Mr. Narumi — otherwise I wish
I had talked with him — she's upset &
is writing too —

Please honey, I know you're essentially
very honest & lived by certain moral
codes but such things as W.P.A. etc

are political organizations & least
work in true earnest form - the
people working also are of the
highest calibre - but - then again,
what are you gaining by telling
them of??

Will close to get this off - it's
4:20 now - mail goes out
at 4:30 -

children are fine - will write
tonight -
All my love -

Sally
