

Dear Ken —

hurriedly, at lunch. Ken, what do  
 you think about this — The school has offered  
 a scholarship for tuition only for this semester  
 — the next semester — "will probably be able to"  
 that is, they don't have it but I am sure  
 to get it if I do go. — However, it does  
 not include maintenance as I had asked.

This is going to be pretty hard going  
 for Dick to pay for maintenance & school  
 incidentals — we won't be able to save. If  
 they were going to give me both I would  
 go but I don't know whether it is worth  
 the struggle without it.

Dick says, "go ahead" — but he admits that  
 he is a man & a man would prefer to have his  
 wife to himself when he is at home. I think  
 that work prefers that I don't go on to school,  
 it would be much more fun & happier not to  
 go because there are so many things to do  
 together, etc. — And if anyone gets sick  
 or something, it would be ok. I think  
 of the times I was in bed while working  
 on the farm & wonder whether I should  
 struggle to it all — It seems only a  
 bit foolish to desire the scholarship  
 but it is only as a substitute — I  
 wonder whether it is worth it all.  
 am inclined not to accept it now &  
 work — probably not so work but I

don't feel that I care at the moment  
anyway, what do you think

Thanks, Kar for being so prompt  
about your letter - you've really  
been a lot of help to me.

If I don't go back  
to school wedding probably a  
week later. more later -

Yui

Your hearts were a scream.

Showed it to Deck &

he liked it too.
