

Tuesday.

Dear Jan:

Thunder, rain, and lightning. No that is wrong, I think, lightening, thunder and rain. Rush into show before a storm comes. It seems as if everybody had the same idea. The showers were crowded with all types of figures.

It happens, I have chances I go down to Sally's and pay a visit. The children are getting so big. Especially Kanezo. He is shooting right up too. Miki is just Miki. Sally is pretty busy with them. Thank goodness Kanezo doesn't walk. It will keep Sally in circle with two of them.

How is the housing situation there? Having any luck? I sure hope you are.

Heard from Stak. She is having a difficult time in finding something to live in.

She heard from Son. It seems as if Mrs Okimoto has gone to Mich's place, maybe she is going to stay also. Waiting to find out. Ha! Ha!

Talking about Mich, have you heard from him. Gee I haven't ^{had} even a letter

nor a card since he left last year.
maybe my fault for not writing to them.
Have you there new address? Please
let me know. It would be most embarrassing
when some other people asked. In times
maybe I may need it too. Who knows.
I think as soon as I get the new
address, I will take time off and write
him. Maybe I may never get an answer.
Do you get answers?

This month of July, sure is bad month
for me. My hay fever has started again.
my eyes are itching, so they are red again.
It sure tough.

min must be busy now. I haven't
heard from him almost 2 weeks. He gets
pretty tired and sometime pretty mad, too.
They have a lot of person working for
them. He goes into town and do food
shopping every other day and must also
get the Mexican helpers in the morning
and take them home.

Donna is going to be year old next
month. The time goes fly fast. Not only
time but days too. She is getting along
okay. no troubles with her at all.

Has Sally told you how bad
Shair is getting along. You will be so
surprised when you see her action

and her speech. She sure has be getting
bad. Now I can't even control her inchant
yelling or spanking her. I hope she will
not get any worse. Hope you can take
Miki out before she gets into the wrong
company.

Can do you remember when we used
get our hair curled with rags. Well
believe it or not. I have started. I ha's
hair. She wants it long so I have do
something about it. First thing it came
into my mind was to curl it with rags.
She looks cute even I do say so myself.
I'll write again.

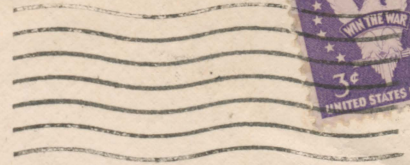

Good-bye

Took
