

Wednesday noon

Dear Jan - Yuki Matsuo left this morning - she'll probably be in N.Y. sometime at the ~~very~~ beg. of August.

See, the days go by so fast - The Pavilanas are really leaving now - probably in about a week and a half - to Evansville Iowa where Hatanaka-san is - He decided it was better to stay there & have them come.

So - that's that - I hate to see them go -

• Mrs. hates the idea of leaving before I do but she can't wait forever - she's going on a Trial Indefinite - the kids will be put in school right away as the semester apparently starts very soon.

Hana Ejima left this morning with her mother to go to Boulder - her sister in law is having a baby next month so they're going to spend a couple of months there & then decide about definitely relocating

she has 6 older brothers so financially
they isn't much to worry about - I was
glad to see them go because its the best
thing for them under the circumstances -
as you know.

I got an air mail note from Wak ^{Saturday} -
copies of which she sent to Properties &
Mr. Kumamoto - asking to have
some of the stuff sent immediately -
its Wed. & properties hasn't come for
the stuff yet - Wak's going to be furious
but that's no bad - the dept. has other things
to do too - ~~she wrote~~ I got another letter
on Monday in reply to my queries
about the Ejima funeral - she said
they were going to see the apt. on
Sunday - the stuff was or rather is to
be sent to W.R.A. - Boston - well,

I hope they got the apartment.

You got a notice about the camera -
it's now in the hands of the W.R.A.
& will be here one of these days - with
that swell!

Mrs. Mametruka got a telegram from the
Ward Dept. - her son has been injured
in Rome. - there have been so many
telegrams acc. to gossip - today's
paper should have some in it.

George Aso has been bringing in the Hayward
Journal for me to read - sort of good to
read familiar names again - Principal
Ried of the Bret Harte School has been
ousted after some terrific publicity -
Christian was put in his place but
has since resigned.

your letter dated the 23rd came just now -
about your brother & Alan - I think it's
perfectly alright to put the pressure on him -
after all - he's got every thing & there's no
reason why he can't cough up a little now -
he's probably going through some little hell
now - you probably know that Alice's
mother has relocated & is with them. -
which probably costs something for him too -
but what the hell - I don't think it's
being a bit unreasonable to ask him again
& again - If he refuses I assure you
I'll write him myself. Don't worry I think
Wah is perfectly aware of our financial standing
however before you do anything about
borrowing from her - I think your ^{brother} ~~foot~~
ought to be run through the mill. Wah
owes you nothing but your brother does &
that's where it should come from.

about Paul & Doris - I heard from Doris in
January - a short short note saying she
was packing to go to Black Mt. - N. Carolina -
asking me if she should send ^{me} a dress she
thought was mine - I wrote later &
received no answer until about May
sometime saying they were leaving Bl. Mt. -
where was I? - & that she would probably
go back to Calif. in a few days or
something like that & again asking
me what to do with the dress. I didn't
answer for about a month and a half - finally
remembered that she had sent the letter
air mail & asked me to write immediately.
I thought by then she'd be in Calif. ~~staying~~
but I guess she decided to stick
around with Paul for a while - Well,
if you don't see them - give them
my love -

By the way what does H.O.L.C.
stand for?

Have you heard from Bob ~~you~~ Skibata lately?

Also - where is Port Chicago? - Supposed
to be somewhere near Hayward - had
some sort of major explosion there - 300
killed.

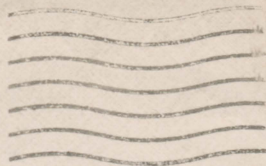

Will write more later - gotta write this
off now

The kids are getting more rambunctious
with each day.

Love
Sally
