

Dear Mother: -

May 27, 1933.

Here I am again after quite a long delay - Pardon it please - know. - It seems that I have been awfully busy the week - some - how, I don't know.

For example -

Monday - First Aid Class.

Tues - Pontiac (gave away car).

Wed - Home.

Thurs - Out all evening with Bill & drove - day before road test.

Fri. - Road test in the morning - Mrs. Herie & I went to the Faculty Play - personally I thought the play was pretty terrible - the play itself - I mean, not the acting. I think I passed the test.

"The Brownie" or ~~Paul~~ Inspector said that I was a pretty good driver. He wondered what had happened the first time I took the road test. So - guess I got my license.

Wonder how you have been. Mother, dear, your letters are not very indicative of how you are.

Chicago to see the Century of Progress.  
Expectations here. Hope that would  
be swell.

I don't know whether Daddy writes to  
you to tell you about my marks yet, but  
here they are anyway. — They ~~are~~  
go to make the best average that I have  
ever had, since I have been going  
to high school — What do you think of them?

English II — 92. → (this makes good marks)  
History C. — 93.  
Trigonometry — 90.  
Chemistry — 95.  
Drawing — 85.

Pray Ob'ay — and I glad to get  
such an average. —

Well —

↳ (1) 1/3/53

Thanks awfully for the bibliography  
of articles concerning aviation. —  
I guess the way will be alright,  
although haven't spent an awful lot  
of time.

Car is about the same. I drive it  
about Sunday occasionally but it  
still needs an awful lot of work done  
on it before I consider it perfect —  
that is perfect for a Model T — I had.

I go in about every noon to see Paddy.  
— that is I have, this past week.

As to the color of your bathing  
suit, I don't believe that I would  
be qualified to say what color would  
suit you best. For see I am well  
no authority on such thing — of course.  
I could comment on it after I had  
seen you in it. But I think you  
will be sure to pick a becoming  
color.

Wish that school was out, and  
that Bill & I could drive to

I think that I have almost run out  
of material to write on what do  
you think, at this time am  
listening to a broadcast from  
Chicago, — with the Chicago  
Symphony Orchestra — and at present  
Lawrence Tibbett is making  
his contribution to the Century  
of Progress Exposition. — Pretty  
Small —

Will you —

I guess that really is all

So... —  
lots of love.
