

May 7, 1933.

Dear Mom; -

This is in a way my second letter to you today. This morning I went down to see Daddy. I was surprised to find that he hadn't been feeling so well. I wrote a letter for him to you.

Friday was Arbor Day in the school so we got out of school at 9:45 - played baseball to 12:30. Went downtown and fooled around then I went home for lunch.

Saturday I got up early and I and another fellow - by all Doreigh a scout in the little ^{troop} ~~scouts~~ climbed Mount Amersand. Boy, what a climb - I went up Amersand three years ago. but I didn't remember the mountain very well. We cooked our dinner ~~rite~~ on the top of the mountain. Gee what a swell view from the top

We rode out and back again,
on our bikes a total distance to the
top and back again to town of about
22 or 24 miles. Some traveling. eh! —

What?

We had our Senior Ball —
that is the Dance given by the Senior
class. — and I didn't go —
couldn't get a date for it. at
least one that I wouldn't
want.

Very soon I'll have to start
writing my Senior Essay. Wish I
was sure of a good subject to write on.

This afternoon — Dr & Mrs. — Mrs West
& Monte (kid about 3). Mr. & Mrs. Grossman.
Friends of the family and myself went to
Lake Placid to see the Auto Show —
Yeah, — did I see some swell cars there.
a Cadillac that cost 3 or 4 thousand
dollars. — some day I'll take

you out for a ride in one —
when you come up. for comment next
and if you stay long enough I may be
able to get the Model of Body for
running and then can take you for a
ride in it. It's an awful lot
for staying my having a car
after school's out. I'll make a swell
car out of it.

I received the Maple Sugar.
about Wednesday or Thursday I think.
It certainly is swell stuff. Jack
came up on Ampersand with me.
By the way — the tower

Guess that's all Walter.

I started to go down to the
movie tonight but Mrs. Geise
suggested that I ~~go down~~
think about my ~~first~~ essay.

Well - - - -

Lots of love.

George

P.S. | certainly can get a swell view from
the tower. Wish you could see it but
I think the climb would be pretty
tough on you - it was on me but
on all ake. —

George —
