try to interest them, to help us
for a couple of years - so we
can keep a home for two
more years. George then will
be sixteen years old. To
keep up my husband's
courage by keeping our
home - just 2 more years,
you have helped so long -
won't you help just a little
longer? — This will be my last appeal to you.
I am going to
see some American archi-
tects and some of my own
friends - I must raise
\$1500 - (this will take
care of ^{us} two years) with what
income we have from
insurance - and occasional
small checks from friends -
Our physician - has at 3
different times given us a
\$100⁰⁰ check. (Christmas, etc.)
to help us.

If you could interest a half
dozen Japanese friends - and
they would ^{each} subscribe small sum

I brought down letter
to Mr. Honda.

Mr. Mizutani -

I have come down to get your
advice what is best to do - We
are short 60 ⁰⁰ a month and
need that amount to remain
here, to keep our little home -
this will give Sam hope and
ambition to get well (he is gain-
ing his strength daily and feels
my much better) If we
break up our home, I will have
to send my husband to a
County Hospital, which will
cost \$35⁰⁰ a month, besides -
I will have to send George to
some family and pay his
board and room rent - he is
14 - too young to earn his
way - I will work of course,
but I cannot pay for my
husband and ever. It is too
much for me - Wait you,
Mr. Mizutani, please talk to
some Japanese people and

month for one year, at 5⁰⁰
 a month for two years,
 (five names.)

care of my husband - thus
Mr Brown's interest, and
Mr W. - a classmate is
serving for George - He is
about to go to reg. boarding -
he needs nursing care -
(don't think he'll be able
to write while there, -
at home, were there to help
him at any time -
