FILE
STEVENS

Dear George:

I am happy to have a copy of
Mr. Davis' letter inviting you to participate
in the Stevens Symposium, a copy
of your reply with its appended note to
me and, above all, the copy of your
brochure showing on its fly leaf those
warm, friendly words of which I am
much appreciative.

You are wrong in thinking that I
proposed your name for it was
Keen on behalf of Stevens Institute

who approached me. Seeking an
easy channel to you.

Your reputation must have done
it. They seek you out - without
benefit of brochure!

Yours. lessons, is really a good
one, its scope variety and quality
of the work of Proctor and Masters
most impressive. - Imaginative,
inspiring!

So you shoud, in all the years
of my practice I never got out
a brochure? I am glad now
that I didn't. Wouldn't have come

up to you.

When you are here on Nov. 15th - with probably dinner at Stevens that night - we hope you can dine with us on the 14th or the 16th. Jean especially asked me to invite you, so we are hoping!

Give my best to Tina and Peter and tell them that I enjoyed our meeting when they were here, more than they did.

I hear I am to get an invitation to the symposium - so am looking forward to November.

Always sincerely
John.
