BROOKLYN 19, NEW YORK

February 22, 1948.

Dr. M. N. Bunker,  
American Institute of Graphic Analysis, Inc.,  
Noel, Missouri.

Dear Dr. Bunker -

As one of your graduate students, I am writing to ask if you or one of your assistants will kindly help me with a certain letter formation - I do not recall ever having run across such an awkwardly formed l, f, t, b, h - all following the same

crippled look, with few exceptions -  
ours. (on a school paper) -  
The boy is about eighteen,  
a fine student (and son  
of one of my close friends,  
though I have not seen  
the boy, since he was very  
young.)

If you would give me  
any hint as to above, I  
would be very appreciative.

Thanking you.

Very truly yours,

Agnes A. Rockwell
