To My Swahiko -

yet a little while, Dark Angel -

Thee clad in robes of mercy -
spread not thy wings so wide

You have waited long I know -

But wait, I beg thee - yet awhile longer
girt a little while & let me even this race,
hone of my youth

Deeper grows with ^{all} the passing years -
I am and amping, ^{ever above} ~~ever above~~ ^{slip} -
not with feeble ~~body~~ ^{body} - but spirit

Once more, would I clasp thee
in my arms

and hold thy hand in mine

Dark ^{Angel} - ~~less~~ spread not thy
wings so wide -

I implore thee,

This thing of steel that bears me
swiftly ^{on silver rails} ~~on silver rails~~ ^{than the} ~~than the~~ ^{with} ~~with~~ ^{into} ~~into~~
fleetly ^{with} ~~with~~ ^{into} ~~into
What chance have I to even~~

relent
lessly -

When, thro, dark angel -

These two would join -

This thing of steel that bears me

Relentless on silver bars

than the dark

deepening night

To my fathername -

Keep me to win - you must -

Darter - faster - lest we be late

Come on the other - heed my prayer -

Whether the one be done or aught

I care not which it be -

But let me to my heart's ^{one again} own -

~~Haste - haste - here it is too~~

God, hurry the wheels drag - ^{late}

Haste, haste - I say - ere
it is ^{be} too late.
