

July 11th 1942.

My dear Larry and Tenguys:

No. How are you spending in this hot days? Here we had 100 degrees last two three days. Though it is so hot, in the evening we could sleep very easily. Morning and night is nice.

I met Mrs Ijiri three times. You know that she lives in the stable's, so it is hard to meet her all the time.

In the morning I go to hear lecture of American history with mother. After-noon two three times in the week I have to wash.

Everybody is so lazy to write and still we want to get letters each day. I am knitting sweater and first stocking. Jiji is reading magazine or play the cards.

He was so busy to make "Jana". Yesterday he made big board on the bed for those beds are not good.

From day before yesterday our new shower opened so it is so easy to go but mostly it not warm. Hot time is nice, in cool water. Every-body, almost, carries the wagon to go far away washing. It is so short and we feel back ache. About two weeks, it was hard for us and specially, yo refused to eat vegetables.

In the morning very often we get the grapefruits. I think in the morning and noon, the food is alright though <sup>it is</sup> not enough for young people. Did you hear that some asked more food and they were refused so there were little quarrel between them. I do not blame them. Every night I bring two three pieces of bread from the table.

It is not so good. But lots do for after supper and pretty

long time until sleep. They are so hungry. We got your delicious cookies. Go asked me to write more but I am saying that you can't get enough sugar and it is too hot to bake so many. Japanese food <sup>is</sup> very poor but ~~Japanese~~ American food is ok for this big number.

Please tell Nancy & Jane to study some or do more hard work. They do only washing clothes and own iron. Play and play. Lincoln, Wankers, Calvin, Hikaru are working in the ware house. Thomas is in "Camouflage" net work.

If you can do not ~~go~~ in the camp even the order goes even Uta. I want go out like Go.

Books contraband was made and all Japanese books turned in so jiji feels lonesome.

No.

To-day I went to the canteen place, there is more things such as tooth powder, finger nail polishes, oint for hair are added besides tobacs and soap. We are so lucky to get recrements easily with book. I spent about 67 already.

If you find some cinnamon drops or some fruits taste drops please send us some. I will put dollar bill. I think small package is easy for heavy carry. If you find dried shrimps please tell me. Then I will send money for Jiji likes to choo, specially this time there is not enough sea food and salty food. This is not so hurry and just try for 1 lb because I am wondering we can get or not. If we stay longer I will ask some more...
