

Did the North Star grant make a difference? How?

The North Star grant made a tremendous amount of difference! It enabled to Coalition to pay for long distance phone calls and printing which otherwise would have had to come out of people's pockets.

Do you feel you've made progress? In what areas?

Yes, progress has been made. The formation of ECJAR itself was historic and that a structure exists to unite the community is a step forward.

The CWRIC has since made its recommendations which we feel would not have been as positive as they were without the sentiments for justice, redress and reparations coming directly from community residents. Grassroots coalitions such as ours were instrumental in developing this community-wide response. (over)

What other organizations have you worked with since our grant to you?

What other fund raising activities have you engaged in since the grant (including foundation, government, grass roots and personal fundraising)?

Additional Comments:

Legislation is scheduled to be introduced this month based on the CWRIC recommendations. We are a step closer to the realization of our goal.

FINANCIAL SUMMARY

Please account for the North Star grant below, being as specific as possible in explaining your expenses. For instance, if you used part of your grant for rent, list the monthly rent, the number of months, and the total; if you bought equipment, describe what you bought.

If you have a financial report for your last year, please enclose that in addition.

	Amount per month	Number of months	TOTAL
Salary			
Rent			
Phone			50
Printing/ Duplicating			150
Postage
