3. Numbers of Senators and Representatives in the State legislature.
4. Names of the Senators and Representatives from our County or District.
5. Number of Counties in the State of Washington.
6. Names of the King County Commissionners.
7. Name of the King County Prosecutor.

Thank you very much for the above information.

Yours respectfully,

Dear Mr. Takahashi:

Most of the questions in the lessons refer to what you have studied in the textbook. The questions asked about county and city officers in your own locality are for the purpose of encouraging you to find out these facts. You can find the names of your county officers by calling the County Clerk, and the city officers by calling the City Clerk, if you do not know these names from reading the newspapers. The person named on your application as your helper will surely be able to help you in obtaining the information you need.
