April 22nd

Dear Yuri -

My motto at Savage was "Calif. or Bust" now it's "Australia." Hope we don't stay too long in this region. A few weeks more would be swell. We'll be able to see the Bay Region cities. And now that the army (including General He Witt) permits nice soldiers to roam wherever they please, I should be able to get a job to see Mt Eden over Easter weekend. Must be sure to drop into my starting point store, Blank's, Milton's for a cup of coffee, and New Pantan Cafe for some good chop suey. Wonder if the people would stare at us as they did when the gang stopped over in Sacramento. Wouldn't be a bit surprised if some dodo called the FBI and report us. I've so many places I want to visit, I doubt if I'll have the time. Good thing Pittsburg is just a short distance away. Don't know how long we'll be

here but hope its not too long. We're sleeping in tents and breathing good Californian air. Hope it doesn't rain cause there's no floor to the tent.

Just curious to know whether you were able to guess what was in the last package from Ogden. And hope also that it was good as the sales lady claimed it to be.

If you should write, please use the following address for the time being. Should be here for a week or so.

Doubt if this letter will reach before Easter but wish you a Happy Easter just the same.

Yoshiko.
