 Sept. 26, 1942

Dear Yuri,

I am still in Colorado, but what a different Colorado. It did wonders to my depressed feelings when I was able to see the fresh and lively hue of green on the lawn, the trees and shrubs. The tour around the campus and the introduction to the kind and helpful personnel staff has also added to raise our <sup>rising</sup> spirits. ~~off~~.

All of this reminds me that if it were not for the help of from people like you, we may not have been so fortunate. Truthfully, Yuri, I cannot express my appreciation

but I hope you can understand  
how deeply we feel about the whole  
situation.

The home where we are boarding  
and rooming is very pleasant. The  
lady of the house is very understanding  
and very kind. She surely helps us to feel  
at ease.

~~Also we have met the registrar~~

I hope now that we will not slack  
on our part.

Thank you again, and I hope the  
students are not causing you too much of  
a head ache. Seem to me by my own  
experience that we students can surely  
become selfish at times. Of course we don't  
realize till it is said and done, but I  
suppose that's us.

Sincerely,  
Frances Sauchya
