Amache, Colorado

Wed.

Hello Yuri -

Past 10 and haven't done a thing! Good excuse, left my books at school. Had lunch with Min & Keri and left my books at my 10'clock class but was easily persuaded to go to a show with them. "Of Human Interest" was the best I've seen since Random Harvest. Wm Saroyan, the sociologist (?) with a good cast. No, it isn't the case of this being the only one I've seen since you came - movie going has become a weekly affair - with Sumi - we walk down to Esquire & I did see one with Sadame, one Sunday. Too bad Sumi took the day off today - otherwise I wouldn't have had to rush off so. But she needed it and I was the one to suggest it to her during the past week-end so - That's that.

The remainder of the letter is a bomb-
full of questions and favors.

Have been waiting for further direction
about a abdominal support for Pa. I left
the pamphlet at his home. Perhaps nothing
worthwhile or adequate; but please find
out so that I can at least try to have
them sent and returned for adjustment
while I'm still here. My leave is up
on June 8. I've kept your round-trip ticket
and intend to use it for my trip. What
about accommodations from Granada to
Camp these days - Cab or does one notify police
"pick up" service. Did your train arrive
in Samar or Granada - Is there a way
to get in from Samar if only to Samar?

Will you tell Tok & Sally that I think
I saw a new lot of corduroys in the stores
colored - so if they want some to let me know.
yardage & color. (at least for what if not a
definite color) In fact, as I wrote Sally,

2
Have them send me their "last chance"
shopping list as soon as possible. Do you
hear of trucks coming up -- or anyone
who wouldn't mind bringing things back
for me. I've asked Sabame today to let
me know if she hears of anyone. Maybe I'll
ask Min too. Depends on what lists I get.
I've been keeping an eye on my coupons
so that I'll be able to bring at least a
few groceries home, but a lot of that depends
on shipping. If it is Cab Service from Grand
to Camp, I may get it before I go into camp,
there in town; but if Palice, -- a little more
trouble.

Would you need any yardage? or would
we need any for Pat. The white flannel was for
his 4" ~~...~~ and I am wondering about
terry cloth. I saw a rug at a sale -- scatter
one -- for his bedside. Would you want a
denim culotte? I don't know what his
diet will be, but how about getting a few
small pans for ourselves. Not expensive (?)
Wares because we have a box full packed at
home for housekeeping purposes should

such accession arise; but it may be a little inconvenient to rely on Saclip's too much. What would you suggest. How are we stocked up on dishes? Say - when is he coming back - Oh yes, please check on iron card. Spied one at a little store today.

I gather you hadn't heard from N. at all since his departure. What motivated such action? Just telling him or what? You got me a little curious that's all. If you need money let me know and I'll send you some.

Do we need more bobby socks? or how about other underweers. Rumors again but clothing may be restricted a little more, I won't be surprised. Waals are practically obsolete. Any patterns? I'm thinking of getting a blouse pattern. Do you suppose you will need a Japanese Dictionary. Saw an ad. in Pacific Citizens for 500. If you need, tell me which one and I'll try

Have considered a visit to the Enomoto's before leaving. What do you think? I guess I'll call Takei up saying I'm leaving town. Somehow I won't be surprised if he no longer is here in Denver. I haven't asked.

Talked with Madoka last night. Masago is planning to leave for the Chicago vicinity ("near or not so far from Alice's" for clerical job in a private school, - a small college I think, more latter when I see you. Tak + Ellen are already in Iowa at a ~~orphanage~~ orphanage - self sustaining type - with farm chores and etc.

Remember Marian "Alice" Isono - She got married to a Fred Fujimoto Sadame tells me tonight. The fellow ^{who is} that was in the Army - I guess the one who sent her the wooden shoes. Sort of surprised to hear

that Aki, ^{marivaki} volunteered and will be leaving
shortly.

Variable weather but somewhat
Springish and I got the fever. Starting
to cut class. not having gone this yet
is certainly giving me a good start. Since
I loafed the first week here, I think I'll
do the same my last week - finish
reading the books I started to read
site seeing and shop. As yet I haven't
gotten anything particular for myself.
I'll have to stop and figure out my
wardrobe for the next 12 months!
Soely - I hope this mess ends soon
soon! Well, Be seeing you -

P.S. I know package distribution takes time but
using your name simplifies things so often. Leave
mine as is & I'll straighten it when I get
home. I often thought to ask you whether you wanted
to send something to Y. but hesitate - so its too late
I suppose.
