Dear Yukiko Teukada:

For just twenty-five
hours this household has been
enjoying a new and beautiful
Japanese print, - and from the
increasing amount of pleasure it
has brought us in this short space
of time I can assure you that
it is going to bring to me and
to my mother as well a great
deal of enjoyment and appreciation
as the days and months go by -

This is a very generous and
lovely thing you have done for me!
I was greatly surprised when you
appeared with the parcel, and
should have liked to talk with you
then. I did open it at the
Dispensary, and showed it to Mrs.
Barstow and Miss Codman who
were near at hand. I realized at
once that it was a particularly
beautiful print, — but not until
I had it at home in the living
room and hung in what seems
to me just the right place in our

living room, did I begin to see
how fine it really is. (It is taking
the spot previously occupied by a
bit of Canterbury Cathedral!).

Now I want to hear from you
what is the signature at the side
in the beautiful letters I cannot read, —
and anything else you can tell me of it.

Please know that I like it
very much, and shall prize it, as
well as enjoy it. I did not need
a gift to remind me of you! You
have been a great help and comfort
to me all the year you have been
with us, and I am sorry to have
you leave us. I shall hope that

we may have you again, perhaps
in case work, for a while, if it
works out for us both.

Meanwhile I shall be eager to
hear how all goes with you at the
school. I hope the arrangement of
time will work out without too much
encroachment on your new home life
especially in the evenings.

And I shall hope to have both
you and Mr. Soukada come to
see me here.

Again very warm thanks
to you - and my best wishes

Sincerely

Edith R. Canterbury
