Wednesday nite —

Dear Jim and Waf —

It's all over but the memories of a truly wonderful few days we spent in Boston thanks to your gracious hospitality. She is still imitating the accent and entertaining everyone thereby. Our flight back was heart-talving !!! The nite was so clear and all of the Boston Harbor in lights was a  spectacle we won't forget for some time to come. We

all admitted the trip was much too short for we were seeing the lights of New York at 12:15 and had landed at 12:25. We took as long to get home from the airfield as we did from Boston Airfield to La Guardia. I mailed your letter as soon as we hit a "fox" so I trust Dick will have gotten it some-time today. If you ever have a chance you ought to try it, Yuni - it's so restful and think of the time you save! I can see what a place aviation will have in the post-war world - why, it's the only way to travel now!

As for Boston, we both enjoyed it a lot more than we expected I think. There were so many little surprises and it was so restful - you're no idea. We were fully prepared to return exhausted -

On the contrary, we found  
rest, as well as a memorable  
visit. ' Only regret I could  
have spent more time  
at the hospital.

I'm indebted to  
you both for making  
our stay so pleasant  
and am looking forward  
to the time you'll be here  
for keeps.
