

Box 93  
Kimball, Neb.

Miss Yuri Domoto

6F-5C

Canon, Colorado

Sunday nite

My Very Dear Miss Tomoto.

For your very profound dissertation of the two schools of thoughts involving the word "chan," — an orchid.

For sticking on the stamp upside down — I take away the orchid. I remember now that I still have loaned the stamp used to send an air mail to Kan. No, guess I'll keep it and use it to mail a letter to you. O.K.?

Miss Philo Vance, the guess on the list of prices came very close. 75% correct. How the figures got involved in a box of nuts is beyond me. Could you deduct that too?

We're still wondering too as to what a "quota" is. All we know is that we walk, waul, stoop, waddle up and down the field from about 8:30 A.M., knock off  $\frac{1}{2}$  hour for lunch, and keep going until 5:30 - 6:00 P.M.

Shucks, missed the opportunity to see you as

a farmette. What did the farm make  
you do? Do you happen to know as  
to how the canning project is coming  
along? Is it putting up tomatoes and  
beets?

Is there anything I can do in the  
way of shopping? The stores here are few  
but well stocked. There may be things  
here of pre-war vintage which you can't  
get at Amache or Lamar.

How's Nan? Sister, on a postcard to  
me wrote. "Nan is home, hurry back."  
I quite could not fathom the urgency of  
her note. - can you help me, Yvonne?

If I do come home before the season is  
up I would need a travel permit to  
get back - the route will be via  
Denver. Could you please get me such  
permit if it is to be obtained thro'  
Amache's Hanson? Or do I get it through  
the field office in this state?

Dick
