Monday mite

Dear Yun,

It was stated this morning that we will work on the canoe also. The work will take 2 days, maybe a part of Saturday. I cannot tell whether we shall be home on Saturday or Sunday mite.

Found a lot of mails and packages waiting. Your Chronicle and letter dated from Lamar - ? A card and a package or two from sis. A letter from Sam Jew at Fort Benning. An August pay check from N. ADM. Room 10 with fancy holes punched thro it - forwarded from 6F-7D.

The letter sounded very intriguing - a long talk with sis - on things between "us women"? And the paper was a real treat. For some reason the "Post" is not available here. Nor ~~any~~ any

papers which contain interesting and up to the minute news. You nearly sabotaged me from writing this letter because I was plumb comfortable - reading the paper after a hearty dinner.

Had a real lath just awhile ago. The hot water came ~~up~~ up to about my ventral laterals - wherever in the back that is - squeezed the bottom of the tub and it sure felt um -

The Army gently chastised me for not writing to him. So, the Army has the priority after the "home front." So, can you please forego the L. L. G.? To tell you the truth, darling, the coming episode is a dry bore - just sheer waste of time - no fooling.

The young'uns are at the cinema. They are getting a lot of confidence

now. See, this life is a real aid to
their much abused morale. They are
beginning to really feel like they are
the part of society and not its "lost
child". Good for them - from us - you
and me.

^{For}
The the first time tonight. The big
game is not in progress. Now a
little game is going on - for 1/4 of a
ship. Now power to the "B" league;
they are having a lot of fun - genuine
fun.

The weather is beautiful. a sort of
day when I'd want to go fishing
with you out into the fields! Lets go
some morning. Right after breakfast.
Its a date. Now. I promise I shant
give you a demonstration of how
potatoes are picked. Amen.

Dick
