Yuri darling,

Came back from a trek down to Providence. Went there to meet Mrs. Newman of the International Institute and see how the Brown & Sharpe proposal was coming along.

Mrs. Newman was busy so I didn't get much chance to see and talk to her. Got a word in with Miss Burr - secretary or something there - she knew a person in the O.N.I. and was going to contact him (in N.Y.!) to see if there was a place for me! This angle grew out of our talk that an area must have previous groundwork before an evacuee comes in. Said I might get evacuee news and Nisei soldier work news thro' the O.N.I. Anyway, honey, please do not get upset about my reverses - even the best laid plans of the army winds go awry. See, what an excuse.

Just relaying the things which are  
going on all about me.

B. & S. is in the explanatory stage -  
in all cases. Providence is in need of publicity.

Through Mr. Annote (man interested in  
our case) a committee is being formed to  
help us in Providence.

Gosh, darling, what I started out  
to say was that I received your letter -  
(mailed Saturday) when I got back tonight.

Can hardly believe that you are  
going to come out here soon - Darling,  
I'm so anxious to see you again.

Whew! After three weeks in N. E. States,  
I'm right back where I started from -  
ho! ho! Gosh, this is no way to get  
a wedding ring and bells. Darling, don't  
worry.

Was in such a hurry to get out my  
letter, out <sup>this morning</sup> that I forgot to enclose  
the "wristwatch."

The Washburn situation according to Mr. Alexander of the U.S. E.S. (He went down there Monday) was that of union trouble and prejudices. The management had to back down to their feelings.

Honey, could you send me the address or addresses of watch repair shops in Denver or Salt Lake City? I still have my watches sitting around here. No hurry.

The hat is too big for my head - unless it had sucked 4" since I left camp. Even now - rain, snow and wind I go around bareheaded. Couldn't Tim get into 'em?

Wha! More power to the Y. U. C. A. You never told me exactly what the heck the conference is for but I shaw am missing a swell chance to sit and watch you fret and fret - I'll just grin and relax in that comfortable canvas shaw o' yours.

Honey, in all my time here in Boston I just took in one show, two ~~bottles~~ glasses of beer two hamburgers and stuff. Hurry, I'm saving

the shows for us — The bear? hum —

Wed. 2:20 P.M.

Oh boy had a long sleep got up about  
1:32 P.M. — Feel wonderful. Am going to  
town to see Mr. Clapp and see what's cooking.

Bye-bye —

Love — Dick
