Sunday 30th.

Hello Honey

I feel happy as a lark. With not only the super week end to glow over, I received today a letter from Ito via Norman Paige N. B. L. recently returned from Tokyo.

Everybody in Japan are well. The letter was uncensored and contains tragic notes of war.

"Tohi (2nd sister) - - extremely lucky - - after they moved from house it burned down, and now at Meguro (where they live now) houses burned up right next to theirs on two sides."

"We were more afraid of shooting between ourselves as with the enemies" (shortly after the surrender)

"We were bombed out of our house in Setagaya - missed us by a matter of yards"

" - - practically nothing left of cities."

"Sold all my possessions and family houses  
in Kolu."

Honey all immediate members are accounted  
and well except It's husband who was  
shipped to Celebes islands a few months after  
repatriation.

Masas is coming next week end so I wrote  
him a letter. He answered your letter as  
enclosed.

I bundled up my old clothing (most of  
them new) to send to I. G. with hope  
that no one find way of getting them  
across.

Nanami's are going to I. G.

Mrs. Neyana making an house in  
Bucaly Hills. Mr. Neyana at Mangonan.

This morning I started to gutter around  
the room but saw the special letter  
changed my plans.

Honey, I got your letter and thanks. I  
was pretty prooped out for a few days  
after you left and took advantage of  
the silence to get some shut-eye.

came same Friday mite. Made a  
dramatic timely coming by having  
his car stop dead with empty  
gas tank in front of the house after  
traveling all the way from Buffalo  
N.Y in rain and dark.

Was very slow at the wht. This  
mch. Am more than disgusted with  
the 9+1=10 and will ask for a transfer  
som. - a a raise ~~as~~.

Yes su honey, we will go shopping  
together. The birds are as you left it  
in the glass.

Have to go to N.Y now honey so bye.  
Rere three letters and feel very groggy -  
but good - and happy -

Shh

P.S. What's cooking?

Kan is making today. Darcy is making  
and the birds just got up for their naps.

I wish you were here now because  
it's such a list of things to be noted (which  
Neyana never has) and you would have  
some fun stopping in New York stores.

L.S.
