BOSTON, MASS.

Sept. 12, 1944

Dear Yuri & Dick.

I have received your letter with the date set for Sunday Sept. 24. at 2:00 P.M. I will be there Friday night at some time which I will notify you later.

I will try to get Friday aft off so that I will be up there around Friday evening for supper perhaps.

Is there anything here that I can bring for you? I have a little time in which I may be able to do something for you.

There is one thing Yuri, as long as you have the date set, do you have any thoughts as to notifying any of your old friends immediately. The reason I ask is that Margaret Saito is coming up this weekend to play the piano for Grace Saito's wedding. Of course the trip to Boston from Philad. would be a little for. Tak ought to be notified too because she doesn't always get Sat. or Sund. off. She alternates. Well, anyways probably they won't be too many from the N.Y. area.

Yuki Mateno, her husband and Johnny are living now at 111st and are in a small apartment. They are in the same apartment house as the Tanjia and a lot of other person's of Japanese Ancestry. I'm going to look for an apartment soon if things do not turn out

for house hunting.

Dick, good for you in getting a raise. There is some one here (Nissei) who is working in a chromium plating concern in Chicago. I met him just once. I think his name is Fred Kono. Is the work interesting. I hope so because an uninteresting work sure can ruin a fellows perspective. I was just about on a verge of asking my boss for a raise but he started raising hell in the drafting office, picking faults of mine, here and there so I have not asked him yet. A little more polish from working here and dog gone it I'm going to stay some industrial design on my own. That is where you can do the best. I sure enjoy my work. I still think its a dream, even though the boss yelled around quite a bit last week. Good! for you! still grinding away at school. How is it coming along. If I don't get Sally & the kids out soon, I sure better enroll in school too.

Well, best of luck! to you! Be seeing you soon.

Sincerely,

Kan
