Dear Yuriko Takada:

How good you were to send me a Christmas card - and to send a good message, and the little photographs of Miss Hardwick and Miss McMahon! I am pleased to have them. I only wish you had tucked in me of yourself and of your husband! I think of you and wonder what you both or each are doing, and wish we might have you back in Boston.

open -  
P. 10/10/47

The Dispensary is prospering - and in the midst of expansion - fund raising doesn't go fast however with us or others in Boston. Miss McMahon is returning from the Simmons School in June - a great change. We have students from B.U. as well as four from Simmons! One from Sweden. A big year for all of us, and we are glad for we need more staff.

I hope all is well with you both. What are you doing?

Affectionate greetings,  
Edith Canterbury
