Dear Yuri:

It was nice to see you & son & Kan at the Remembrance Day celebration. What a crowd and I did not know half of them. Most of the people I wanted to talk to disappeared when the Food bell rang. I looked around at the tables but saw a few people I know. Kan looked fine. Guess he knows self & can beat. I'm glad you got a ride back - it was nice to learn you are from Danota Nursery family. It was well known also for its fruit specimens on the flowers & great.

I'm on road to recovery but me got lots to do. I putted for 3 months with the bits only to get well - won't ox, letters - exactly. Any time happy to be away long. Fanny Kan & I are same age & getting sick about same time. Its a warning to take care. - Happy Spring! My best wish to you -
