Yuri Tsubado

July 19, 1993

Dear Yuri,  
Whoever heard of anybody sketching, framing over  
one hundred paintings, creating names, preparing photographic  
slides, biographical resume and material, figuring prices,  
insurance, labelling titles, sizes, mediums, dates etc.  
etc in a period of one month in this cluttered small  
apartment? It took 3½ months to recover from the ashes  
and pains, taking care of the Boston exhibition  
celebration and catching up and clearing up tax,  
bills and my personal problems left undone. I died  
and died and died. I finally had to accept the  
fact that I was alone in my challenge and I must  
now with my research in painting over take control  
of my life and work and to lead. There is no understanding  
of the highest beauty out of inner vision. Minds  
only travel on popular art for the Times with judgement  
and taste and they think skill and talent is art and  
everybody is an artist. In July and over the 4th  
holiday for the first time I was able to think and  
move forward again. It is endless work for I have  
to do everything myself but I am free now to follow  
my mind and heart. No longer a concern for the  
humanities set up to educate and to build with  
understanding & kindness.

I am keeping the Boston exhibition intact as a  
traveling exhibition. My goals are very high and  
I will challenge on. The wait is over as I have now  
The final intuitive answers to painting. Gods'  
secrets are well hidden for they are open & obvious.

Sincerely,  
Wm. O'Keefe

Handwritten signature or name at the top of the page.

Faint, illegible handwritten text, likely bleed-through from the reverse side of the paper.

Sincerely  
Atties to free  
myself. I know  
non this is my  
own delusion &  
fester,  
Thank you for any  
shame call,

*Yuri Truboda*

I hope you had a wonderful Time in Calif. From all reports the Tokyo 1993 reunion in Delta & Salt Lake City was a big success I've been terribly busy & I know now it is all my own challenge and I must now take control of my work - no longer to be done I could - - my best
