

# THE PERSONALITY INVENTORY

## INDIVIDUAL REPORT SHEET

NAME Yuriko Domoto Address University of California

Your percentile scores are ..... 73 % ..... 9 % ..... 67 %

The scores on each scale refer to the proportion of the college students of your own sex whom you surpass in the given measure. It is not to be inferred that high scores necessarily indicate desirable qualities; that is largely a matter of personal opinion.

*Example:* A score of 87 indicates that 87% of those previously tested scored lower than you and only 13% scored the same as you or higher. A score of 50 is average because it indicates that 50% scored lower than you and 50% scored the same as you or higher.

### EXPLANATION OF SCALES

**B1-N.** A measure of neurotic tendency. Persons scoring high on this scale tend to be emotionally unstable. Those scoring above the 98 percentile would probably benefit from psychiatric or medical advice. Those scoring low tend to be exceptionally well adjusted to life.

**B2-S.** A measure of self-sufficiency. Persons scoring high on this scale prefer to be alone, rarely ask for sympathy or encouragement, and tend to ignore the advice of others. Those scoring low dislike solitude and often seek advice and encouragement.

**B3-I.** A measure of introversion-extroversion. Persons scoring high on this scale tend to be introverted; that is, they are imaginative and tend to live within themselves. Scores above the 98% bear the same significance as do similar scores on the B1-N scale. Those scoring low are extroverted; that is, they rarely worry, seldom suffer emotional upsets, and rarely substitute day dreaming for action.

**B4-D.** A measure of dominance-submission. Persons scoring high on this scale tend to dominate others in face-to-face situations. Those scoring low tend to be submissive.

Miss Yuri Domoto  
Alice Street  
Hayward, California

Dear Miss Domoto:

As you perhaps remember, I have been working on a study of all Japanese women students who have ever been enrolled in the University. The study has progressed to a point at which I need further suggestions and advice, and I hope very much that you can come to a meeting in my office, 205 California Hall, on Thursday afternoon, February 13th, at 4 o'clock. May I trouble you to let me know by telephone or by note whether or not you can come?

Always sincerely,

*Alice G. Hoyt*
