

Dear Wife.

I intend to write to you last night but went out with Niki to Mrs Oka's place (Lady who was going to be Niki's baishakunin) came back so late that I didn't feel like writing to you. Was going to write a note this morning but didn't have time.

Tight after work went to Mr. Watanabe's (my work ing partner) place. He has a little press shop here in Denver. Use to have a shop in California & knows about cleaning gowns. He isn't much of a spatter I don't think but knows quite a bit of pressing.

He teaches me a lot about
passing so I am learning
fast. I intend to stay
one more week in Denver.
It is a good experience but
a lonesome life. Altitude
is so high that I can
feel the difference.

First day I was worry
ing about my job but I
am getting use to it now.
The boss seems to think I
am all right. He don't
come around like the
first day any more. Stand
ing in front of a person
doing the summer month
is going to kill me so
next week I am Idaho
Bound. and back to my
good little woman.

No girls here that I can
go with and the land
lady gave me hell when
I asked her if she knew
my girl so I am to out
here too. How do you like
that? Dad ease them?

Well tomorrow is my
pay day don't know how
much I will get. Guess
\$300 I am suppose to be
7-1 pressed at that.

What do you want for
omiyake may be you got
time to write to me if you
hurry.

Planning to go to Agaha
pal place with diki. Told
Dad I am not going but
he gave me hell so I
will pay them a visit

any way. Jay do you
want to be a teacher's
wife. Shall I take the
teaching job at Boulder?
Do you think I can
make it? I told Mike
I will take it when
my 1st comes up after
my Physical I don't care
about it now. I rather
if be on the farm
will good night
Phil
