May 13, 1942

Today I went to post office and found out that we are suppose to move to, (in one week) Sacramento California assembly center. After I went home after school and told my parent, that we are suppose to move in one week they were surprice [surprised]. I wouldn't blame them because this place have been my home for seven year and our family. In that time I was happy untill [until] was with Japan start on December – 7 or 8, 1941. Sunday the day the day the Japan attack Pear Harbor Hawahi. Them also in my seven year of stay in this place have made me a grower person. Today or tomorrow I think we got to go Isleton to get, out family number.

May 15, 1942

Today was the day we went to Isleton, California to get our family number with was “5756,” which we also got a physical exam. Them also we got a appointment to meet out our bus at Isleton, California, train, Depot. Which the appointment was 4 P.M.

I think my brother can't finished his model airplane by the time we go into the camp. The airplane is model of “Aircobra [Airacobra].”

Today was my last day I went to school and I got my Transfer.

May 19, 1942

Today is the last day we going to stay here and to see my dog “shep.” which I going to miss him much and the horse that I fed for five year. Today at four o'clock I am suppose to be at train depot at Isleton, California.

Page 8

Drawing with word “Abalone.”

Page 9

This afternoon at 2 o'clock I was at the bus Depot waiting for the bus to come, but the bus came around 6 o'clock which was two hours late and 6 hour waiting for the bus. The near Isleton bridge the bus stop which result in waiting for about 1 hour waiting for another bus. This afternoon about 8 o'clock we arrive at Sacarmento, California.

About 8:30 this afternoon I ate my ~~my~~ 1st meal at the camp. It's was a spam and rice and also a water and that was all, I got at the mess hall. The 1st meal remain of lunch instead of supper.

May 25, 1942

Today I learn couple of thing about this camp. The camp Is called Walerga and we are living in Block 4 Barrack 26. The condition of this camp is bad because of hot weather, bad toilet skinkly [stinky] toilet, and the mess-hall which I got to wait about couple of hour before the line go in and I hate waiting under the hot sun. To my way thinking I think I got to make use what I have. There is one good thing that I like, is the airport locate on west end of the camp, which I could see airplane taking off, landing and flying.

Them also the mess we suppose to eat is still close because of condition and the rumor saying that we wouldn't stay long in here.

I also got my dipideria [diphtheria] shot now and then at the hospital which is locate at southern end of the camp. The hospital is something like our barrack but built better and the hospital have Japanese Doctor.

Page 10

Castle Rock drawing

Page 11

I also enroll in school, which I enroll in seventh grade. The school is like our barrack, but it's badder than I think because it is use as a garage for fire engine. The floor are rock on gravel and the school doesn't have no book and later we got blackboard to a classroom.

The terrain of this camp is bad, because the camp is hill up and down which some barrack is raise higher.

The camp is guard by the soldiers, who carry around a shotgun to make sure their aim is right.

June 4, 1942

Today they posses [posted] a notice saying that they are going to go to Tule-Lake California, boy! I thought were going to get out of hell at last and the people of Block 4 was the 1st people going out. That might I had a dream of Tule lake, a place where they is lake near, a place where I go swimming, and place where I could go fishing. To me, I hope this dream come true.

June 15, 1942

Today is the day were leaving Walerga for Tule-lake at 5 o'clock. This morning I wake up about 8 o'clock because we got packed thing and I am hoping for better place than Walerga.

This afternoon about 5 o'clock I went to ad [administration] Bulding. and from there I went to train which I went with bus guarded by M.P. (Military Police) to train. At 8 o'clock we left the place we rode the train instead of 5 o'clock. We rode the whole night and at morning we were around "Mount Lasser," and sunrise around Shasta Mountain

Page 13

June 16, 1942.

Today I arrive at Tule-Lake California at about 10 o'clock A.M. The truck took us to some place in ward 2. Then We were assigned to a barrack which was 1605-A+B. We were the six [sixth] family who arrive from Walerga. The barrack room were bigger than Walerga.

I expect there was a lake but the lake was nowhere In sight and this place use to be lake on which is now drain. There is part of the lake in the other side of the mountain.

At the mess-hall there was span [spam] and rice same as what we got the 1st day in Walerga. The mess-hall is bigger than Walerga and look like two barrack combine together

June 17, 1942

There were another family living next door called Hiroshata which all ~~boy~~ girl and no boy. I think they came from Oregon and by the there are lot of upstater in here, like Washington. Oregon.

This place have good scemeary like mountain like Castle Rock which is about ¼ mile from here and Abalone on Bald Rock.

This camp could hold about 20,000 people and suppose to have 80 block, but they only have about 80 block, but they only have about 2 ward (1 ward = 9 block) which they are still making some block. I wonder how many year I stay here.

Sept. 14, 1942

Today is the day I start going school, locate at block 66 which I enroll in eight grade.

Page 14

Drawing of "the Barrack"

Page 15

The 1st time I went to the school I didn't feel good because there were lots of people in the room. The school doesn't have chair, table and book. The school is located at 6607-C is which I'm going now. The school pupil are mostly Washington + Oregon and little bit Californian I think $\frac{3}{4}$ are Washington and Oregon and $\frac{1}{4}$ Californian.

The condition of the school is bad but I hope its turn better in future day.

October 7, 1942

Today is the day the farm ask for the help of student to harvest potato because of labor shortage. I thought I was going but it is only 9th grade up. I think we're are going to have tree week vacation.

February 9, 1943

Today the last day we are going school because they are going Registrate the people if they are loyal to United State or not.

Today I am going to climb the Castle Rock.

This is wrote after I climb the mountain boy! yo boy! did the climb take long because I took the hard part to climb but certainly this was a climb. I could see town of Tule-lake from the top of the mountain. Then this camp look like army sodlies [soldiers] marching and the people look like ant. To the West I could see Mount Shasta which is beautiful with cloud hovering around the Mount Shasta. Below Mount Shasta I could see part of tule Lake with duck flying around. To the side of the lake there was farm, this camp farm. The farm look big from here so I think it must be big.

Page 16

Drawing of camp

Page 17

June 16, 1943

Today it the last day to go school and I think lot of pupil are going out. At the end of the school term the school was very much, improve and they are starting to build the school which I think I'm going next semosatm [semester] that if it start. They are beuilding [building] gym. and is it big because they surely got big frane [frame].

July 15, 1943

Today I found from Tulean Dispatsh that that the people who are loyal to loyal to United State is suppose to leave this camp and go another camp or relocate to some eastern place. This camp is suppose to be Disloyal Camp. I am going to stay in this camp.

September 10, 1943

Today is my 1st day I went to farm and didn't do a work because I don't have work and there was no work. my Boss was Mr. Yada which live in this block. He told us that next monday we don't have to come work.

September 15, 1943

Mr. Yada told me that I am to work on combine harvester (a machine to harvest wheat) or 1 for \$16.00 sixteen dollar a month. The first time I rode it and I slept in the bed feeling seasick on something because I feel as if shaking something is shaking the bed sideway but afterward I get used to it and incidently I only have to work 5 hour instead of 7 hour on 2 day work I day off but I took 5 hour work every day. The lunch and supper are better than at camp.

The time I went down there the army gugs [guys] start getting ready for war or something. They were warming up tanks, truck, gums [guns] and soldies start marching around they place. Dr. Pedicoird [Pedicord] a Cacasuin Doctor, was hurt badly on the head. The soldies were guarding the main gate with cannon on a mound bar They were lots and lots of people at the place I think there was about $\frac{3}{4}$ of the camp population was there.

I think I stay there till about 3 o'clock and I felt like coming home early but there was a guard who wouldn't let us go home. I don't know the reason we went there but later on somebody told me that might [night] before, somebody came to warehouse and stole some food which is use for gug [guy] at farm.

By the way there are some Japanesse worker from other camp working at the farm. There are getting more pay than us when we work. There are some worker who was in this camp before.

in the middle of the night. I think one tank went our house stopping in front of our house. Just before we heard the tank we heard [heard] a fast running person trying [trying] to run away, I guess from the tank.

Today my sis, who work at hospital didn't come home. I guess we can't go because between hospital there is soldiers right in front of gym.

This morning the soldiers start laying gas on group of person to scatter [settle]. I think they don't want no more group meeting. They are running the camp now and the Cacasuin people aren't running this camp no more.

The army are running this camp and the order are strict If we didn't follow it. it's stockade [stockade] for us. or army jail for us.

There is lot of person pull into stockade [stockade] from difference block.
