

Nice, August 18th, 1945

My darling Billy,

I just received your letter from August 8th that was sent to me in Marseille, I am happy because Billy darling, it has been 5 days since I have not had a letter from you. Billy darling, I thank you deeply for the package that you sent me, I am very touched, I do not have it yet because it has not come to me from Marseille. My darling Billy, again a thousand times thank you for your kind intention. Billy darling, today I spent the afternoon laying on the couch at Uncle Lodin's and I went over all my memories in my head. My darling Billy, I only have one hope, it is to see you again. I love you Billy darling, thus I hope that you understand that this is why I will be very sad if I had to never see you again. Therefore, like in every letter, I ask you to do your best to get a leave. Now Billy darling, I am happy to no longer be in Marseille because here in Nice, I will be able to wait for you and write you often. Billy darling, have you received the photos that Uncle sent you? What do you think of them? As for me, I do not stop looking at them as I do with all of your dear photos. When you have other ones Billy darling, think of me because I want a lot of photos of you. My darling Billy, oh how happy I would if you were in Nice, we could always be together and spend beautiful days. I cannot even put into words all that I feel for you Billy darling but I will stop for today because you will say that I am crazy. I also, Billy darling, ask you to write me quickly because, for me your letters are my only consolations, my only joys. Billy darling, I leave you in sending you all my love and millions of kisses

JANY

Dear Billy,

I am writing you to reprimand you, we had the visit of your friend who gave us the package that you sent us, it is really too nice. You spoil us too much, but doesn't it deprive you? I thank you very very much for your kindness, hoping to have you with us again. Receive all my best regards and wishes. Thank you again.
