

My, you look well fed  
I think they're trying to dope us with starch.  
Did + gain. We ate everything we wanted to eat all the way rom Puyallup to here.  
I've returned to the same life of thirty years ago. Then, I was sleeping in a room with five other men. I was single and free. We didn't have to cook because there was a cook. We worked in the logging camp.. Some of us gambled. Some of us drank. Some of us slept inbetween times. It's the same now. Only a dream of a thirty years passed bewtween then and now. Stragne that I don't feel any older. I feel just as young as I was then.  
Yes we never reqlize we're growing older.  
No. Now that my children and wife are in Japan all that seems unreal. I can't believe it somehow.  
There was a dead rabbit in the trap. (Everyone files out to see it except)  
I'll cook it on my day off.  
I'm not going to eat it.  
Reminds me of cooking a cat.  
Ohn o...Now I just can't eat it.  
Don't catch tularemia. Inspect the lungs. They say that if the lung tissues are white the rabbits OK. Anyways you'll find out in 2 days. You dont last longer than that after you catch it.  
They say it tastes like chicken.  
You ought to go out to see it. It's stiff. It's legs look l ke frozen rope or something. *now it's unlit & killed*  
OH no I don't want to see it. Poor papa. Poor rabbit.  
I don't want to go out of the house unless you take it off the doorsteps.  
Oh fraidy cat.  
No really I'm not being flicky. Just the idea you know of something dead. Realizing that it was prancing around til it's leg got caught in the trap and it died.  
Don't get sentimental about a dead rabbit.  
That's true. What th e heck am I talking about when hundreds of thousands of young human beings ly rotting all over the ~~the~~ world. It's absurd of me. I think I'll take a look.  
.....Why do dead things have eyes....  
Now as an American citizen I think I'll go take a bath.  
Are you 16? *(Answering her 2 yrs)*  
NO, 12.  
~~Pat slug.~~ No more children. I guess they come this way now Pat slug. Hooray. I got you.  
I'll be dammed. Hey why don't you get 10 bucks from your dad and come down to ~~the~~ my place. We'll have a nice little game of poker. I'm better at that than pinochle.  
M, you better go to bed now. After all you have to goto school tomorrow morning.  
You go to school?  
Sure.  
Study hard?  
Sure.  
You know what *Insaid* to the class today. I guess he went to a psychologiy class or something. He says, "The class
