RECREATION # 6 TANFORAN 8/24/42

The barracks in the foreground was the recreation  
#6 building. Each area possessed its own  
rec hall. Competition was keen among them.  
From out the open windows issued from the  
sound of ping pong games in progress, little  
children screaming in laughter or just screaming,  
girls daring the boys to a volley-ball  
game (we lost) and window panes tinkling to  
the ground. (It had to happen) The boys forming  
the Commando Club, the rec leader trying  
to keep things running smoothly. The leader  
did much more than those who realize - realize.
