Guard House

Dear children

I am awfully glad to hear from you. Isn't it good to write a letter once in a while? Good thing to hear is you are studying hard and help clean house every day. Moreover I sure could know that you are getting better in writing and spelling English.

I will not forget to ask Santa Claus to carry my gifts to you. For this you must be nice and be very good to your mother. What you please mother will please me.

Things you like to buy from canteen such as the snow-shoes or any thing, you go and buy them with mother.

I heard that you bought papers for ten cents instead of icecream and gave one icecream to Masako. Well, that is what I like to hear. You've done fine deed. Some day you will be a great one by doing that way.

Well, children, you asked
me what I am doing.

I liked to tell you this
before, but I forgot it. I am
running and trying something
on my business. But you
can not understand about
men's job, can you, dear?

You could listen to my
story all about as soon as
I get home. Write you soon:

Be very, very nice:

Talsus Inaugel
