Dear Intern Inouye:

Mr Meyamoto send his sympathy to day, and also said the Saniji broked his arm, but getting along just fine. Mama is getting a little worried because you dint write to her anymore, I think she is getting a little suspicious, I hope no body tell her that your been taken, because she will worry. Julie send us lots of Magazine so I enclose some of the Magazine with that book you wanted, so pass it around. Hagiji san wrote and said he is coming around Christmas, I got the Children's toys bought and hidden at Hayashi san's place so please do not worry; Hayashi san daughter is making four dresses & hat for the dolls, and I broke down and made the dolls bed and paint it up to-day. I also decorated the day room up with Christmas atmosphere made a little Angle, and Santa and put it up on the wall

the children were very happy.

Last night we went to Hayashi's place and ate Emo-Gai again he say the A-ka is good for children's stomach. At breakfast they hardly have any thing to eat so I made to get some soak doughnuts, fruit, eat at the canteen so they will not get hungry, This morning that lady I said was nice to us came over, and the children were eating the left over from last night so she brought over some fried potatoe with eggs, Sapui & mands certainly gobble it up quick.

This morning Mark's got up and said: I saw daddy at the Army camp and he was teaching Judo, and she said I thought he was sleeping with me, I guess she dreamt about you, but thinks she really saw you. Hoping you will be back soon - Love.

Lili
