

June 12, 1945

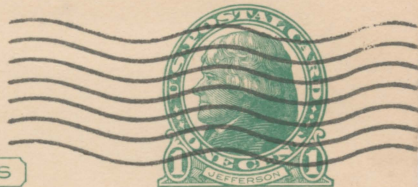

Dear Tommie :

So glad to hear from you again, but sorry your plans to return to S.F. can't materialize at present. Do you still plan to return there after the babe arrives? or will you take one of the other universities' offers? when is Henri now? you didn't say.

We are enjoying owning our own little home very much. It has a lovely large yard complete with badminton court - which we are using every evening.

Roberta & I are going west the 23rd (June) to be with my mother when she has a quite serious (don't mention that word to her) operation the 29th. will be with her about a month. I hope you get better medical & hospital care in this confinement than you had previously. My thoughts are with you. I do hope you'll send a picture of Pusky soon.

Love  
Dorothy
