

July 5th Sunday
10 PM

Dearest Darling -

Pakie has been under the weather today - probably seen stroke from a trip clear out to the picnic grounds with Papa yesterday. She had poor appetite & was feverish but after a nap & aspirin her fever came down. I gave her plenty of juices & rice & water & she is tired & asleep.

She whimpered & cried all afternoon. Papa was supposed to bring her back in but was away 3 hrs. because he followed the crowd out to the picnic area in a picnic with heat dog.

But I guess she'll be OK tomorrow.

I gave another carton of cigarettes, this time Philip Morris to Dr. Sugiyama. Pretty cheap for showing me from what ever may have happened. He may not have appeared but you home from the Hop. without his examination recently.

year of 1901
repeated I'd have an
easy time of it - this time
second child & all so I guess I
shouldn't worry. after all, many
babies are born without doctors
& hospital facilities at all.

My father's going on his vacation
at 3:00 AM July 17th. He says I went
with Martha and they talked a
little about Easter & midwestern
campuses and her work, etc.
He was in the midwest for some time
and has been thru a lot of towns.
He looked tired & in need of rest.

They served us watermelon & huge
pieces of it. Two Pinks didn't like it.
My brother this season.
I guess I won't be having my baby
while he's here but I have hope so & it'll
may be the way I feel. Martha does daily
wash & also bucketful of dishes every day. She
enjoys the food here. We had steak tonight,
also long cream suffe. It was all pretty good. Fred
Holmes went to St. City on lecture trip - returning tomorrow.
Then he's here he shows up nearly every day. Bought cherries & plums
from Delta & it cost \$1.00 for two tho' it was quite a lot.
