

Dearest -

3-2-45

Dave told me yesterday you intended to spend the next 2 weeks at painting the house - I don't know whether that means you'll whitewash or Kemtone or calomine the basement laundry part or what. But I rather thought you may have wanted to Kemtone the ceiling of the living room ~~etc~~ because the leak caused the awful mark ^{up} there.

Are you going to look for some kind of job soon? Have you dropped in at the laundry to say hello? Have you looked at the door there? Could you paint the door yourself some time - preferably Sat. night so they can leave it dry over Sunday & Monday they can have a wet paint sign there. Better find out from a paint dealer what kind to use - & how to prepare the surface before painting. Papa says buy Sears' best quality, it's very good. Tell them for outdoor & gets sun all day.

See, I guess you'll have lots of work
to do — in the garden + so on — are
you knowing the Espade etc from Bentels?
Did you go see them? What did they
say + how did they feel about your
getting back? Dave Tatsuno has met
many who are willing to help — very
influential + monied people. It's
chances of your meeting some too —
maybe thru Mrs. Durenck? Does he
know I phoned her when I made my
trip here + she promised to tell Jane
Shiaki + maybe take me to her ranch
+ both Jane + she forgot to call me
back? I was sort of disappointed.
She — Mrs. D. is very rich + helpful,
+ may offer ideas — if you yourself
assert yourself + act sure of what you
want instead of being so honest + say
you are undecided + will take anything,
don't know, etc. Hear O.W.D. has open-
ings in St. ask Tak Yoshiboshi — he'll know
more than people here. Hush-hush, so —
Love om
