

may 1st
Pinky learned how to say "ouch" &
tho' doesn't know meaning of it, says it
all the time. Seems like I'm bigger this
time than last - feel very heavy & clumsy.
Sitting to be careful as is glad to get baby to
big & tho' it may not help - see size of
baby not governed by diet. Well time will tell.
P. takes bath in tub + harder time to bend
down to bath her. Wish you'd plan to get
here by 15th July at latest. Don't worry re:
permission to stay here - extendable. I'm
exp. new baby about 20th or sooner.

Had neuritis bad for 2 days but OK today. Taking
Vit. B₁ for it, 2^x daily - doesn't help. Weather
no connection, evidently. This week's been lovely.

Yumi Yamadera Wakabayashi vicinity here from Rens
with baby 5 mo. old. Gave me 3 cans WMA. Says
work + income plentiful there + wants us to visit her
sometime. I gave her 1 yr. baby pants.

Been taking G. to Dori Nagai's to watch their
7 yr. old boy bathe each evening together
used to idea. Don't think she'll be much prob-
lem.

Papa may go to St. when do you recommend + by
what transportation etc? Are there few places
he can look at? Later with returnees bidding
pieces may rise in G. town. Turned Jan's
down last week. Talk to Nakanishi.
