

2310 Durant Avenue,
Berkeley, Calif.
February 6, 1943.

Dear "Tommie",

I certainly was glad to receive your note, or I should say interesting letter. The paper to which you refer had already been received and mailed back to the Government. If the name had been "Tommie" in that instead of the attached Takahashi, I would have been able to trace you more readily. You see, six years is quite a time for my recollection ability, and I had had students from that fine family here in Berkeley, so unthinkingly I traced all of them and then went back to the middle name. Finding that and then remembering what interest you took in D.C.A., I wrote of your fine grades and some additional hopes that your requests would be considered. I hope to hear that all is well with you.

This letter had been delayed for I was hoping to receive the paper which you mentioned would be sent under separate cover. This has not yet come, but perhaps you will

forward me another. I should be very interested to hear about what goes on by reading that.

Berkeley is about the same but the college year is arranged differently, three long terms and Summer Session. Graduation for the last class will be held Sunday, and for the others sometime in June. The terms so shortened makes it possible for the student to get thru in shorter time.

I am retired here from my work in the University, and my work is not now given in Decorative Art, the present name of the Department. Miss Lent has classes in sewing in the Home Economics Department. I am continuing my work in different ways, and am taking over classes at Mills College this spring.

My typing would not receive an "A" but do not be too critical, and remember that I look forward to hearing from you again.

Very sincerely

Helena W. Sanchez
