

April 22, 1943

Dear "Gammie" -

I guess what came to mind
with me - the sweet little
gift and I have you to
thank so Martha told me.
It came shortly after my
21st birthday and since
years are becoming difficult
to me - well

Martha is such a grand
person and it's people like
her that are breaking the
stupid prejudice that has
been in your mind long

a hazardous partition.

Yed Ono & I went to
speak with Mr Kennedy
on the relocation set up
over the radio Easter
Sunday but the Tokyo
incident seems to make
them feel it would be
unwise. If people
would only see the dif-
ference between the two
systems in America &
Japan and realize that

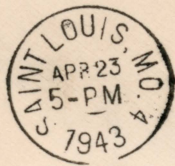

each country is responsible
for attitudes of its citizens.
About all we have left
to go on is faith and the
will for endurance of those
which have been given the
freedom to see the
total picture from a
Christian or humanitarian
viewpoint. I feel I'm
beginning to sound like
a sociology major -
I've not denied

it.

I'm hoping to visit a
recreation camp before too
long. I want to go into
your camp and there's a very
strong possibility I might
work in it. As you
can see my only is
the of interest but my
family is interested as
well which gives me a
beautiful landscape.

Really much with
all you in my life.
I should love to hear
from you - Love,
Bess
