

APRIL 29, 1971

Hello —

Raining this morning — unfortunately, but we have been blessed with fairly good weather throughout this trip.

Got my passport today without much delay and can return anytime. BOA agent called the office yesterday and I re-confirmed my, using BOA on my return. I was told to contact a certain person before I left & I would receive some kind of preferential treatment — conveyed through the Dir of San Francisco office. Thank Mr. Dai if you should see him.

His three weeks since I left San Francisco and things seem to be shaping up. We have lined up some good wooden jig-saw puzzles from ToA — and much cheaper than J & J + one. Also switch plates of 12 designs to be sold in gross lot at around \$36 gross — sensational, since J & J sells at a higher price. I was told that switch plates sold very well by ToA. Take it with a grain of salt, but they said the same thing about large key chains.

Karagawa Gangan also came up with some naphin rings  swirl that will sell at \$3.50 retail for net of 4 pcs. Looks very attractive. Also working on additional designs in naphin rings.

Soaps are coming along just great. We may sell a lot one of these days. MUG designs have been improved & increased.

Love Wuni
