Dear Tami & Martha!

This is a sad/painful time for both of you, hope these colorful flowers will comfort your weary hearts.

I just returned from viewing the Cherry blossom parade & how I wished things were different so you could have all come.

I look forward to the "Celebration of Life" Service for Henry & especially learn about his full/useful life, some of which you told me when I saw you at the Bot class at SNF.

Take care - Time is a great healer & the happy memory of your full life with Henry will sustain you.

Fondly
Herbert & Annis
