My dear Mr. White;-

Your letter of May 23rd came in this morning, and brought us a good news from Henri and his wife in San Francisco. It gave us a great pleasure. We are very glad to hear that they are ^N sending four packages to us through kindness your. But trouble is how to forward them to us. You like ^{to} know my suggestion for getting the packages to us by some other means than sending by Japanese mail.

If you think by the time the packages arrive you will have time to deliver them yourself on some weekend please do so. but if you cannot do so please try to ask your American friend who ~~comes~~ happens to pass the Moji Station ask him to leave the packages at the R T O Office. Mr. Koike the interpreter of the office will tell me to go after them when they ^{are} left there. The address is this way.... Mr. Koike c/o R T O Office of Moji Station.. That's good enough for them. I am going to ask him about the matter. He will notify me when the packages come to him by this way i mentioned here.

Unfortunately you cannot find your friend who come this way just send them to us by the mail please .

God bless you and your work.

Dear Mr & Mrs Takahashi,

Just to set your mind a little at ease concerning the packages. I talked with my lab officer tonight & explained the situation.

He is quite a wonderful fellow & consented to grant me a little pass long enough to deliver your packages plus a day or two for myself.

I've been rushed like mad lately, so naturally I want to take a little trip, & since I have many friends there I know of no other place where I'd rather take off for a few days ^{than to Miji}. I have a Japanese chemist who ^{now} is assisting me in serology. He can very easily hold things down

till I get back. So I
anxiously await the
arrival of your packages
so that I can take a
much-needed vacation.

I have already received
the letter which you
thought might have come
slowly, but as yet I
have not heard from
your father. I am send-
ing him the letter you
last sent me.

Do you have any
pictures that I could
stick into my pocket
& take along?

Sincerely
Ben H White
