

Mrs. Tomoe Takahashi

Almost six months have past since you left Japan. but I regret to say that the patent business you asked me to attend is still not completed.

Mr. Watanabe has been long away from Tokyo to Kyushu and ~~so~~ until now I can not get contact with him. I gave his home several times call but his wife were out at each time and just few days ago they moved away to new place where I can not locate as yet.

Moreover I have moved from Harajuku office to the under mentioned address for Mr. Bingham has joined to the foreign company as a car salesman and as ~~for~~ for me, I am engaging import & export business together with my friend who has recently returned from the state at the office ~~see~~ under stated. I hope, therefore, we can do business with your firm.

I want to complete your patent business as soon as possible because it is always kept in my mind but Mr. Watanabe has all necessary papers and he ~~has~~ has promised to give me the designs ~~and~~ and so I got to hold of him in these days. and I will report you the ~~result~~ result sooner.

Hope you write me back your recent activities.
