Dear Tomoye and family.

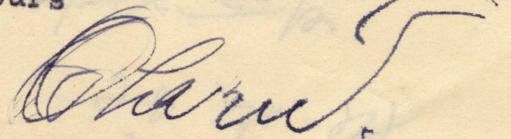

How are you all? Henri came and stayed here just two days with us early this week. He is at Tokyo at present on business. We had a wonderful time with him and could talk with him about several things. But I was and am sick ~~and~~ in bed. Dr. says my sickness is hi<sup>g</sup>-gaut-hipbone trouble. I feel pain of the left leg and can not stand even a few minutes. The Dr. attends me every day and I have CHUSHA treatment. A little better now but must have the same treatment more longer.

It was too bad for Henri to see poor sight. But I shall try my best to recover from it anyway.

Now I am send<sup>ing</sup> a few picture<sup>s</sup> to you. Henri wants us to send you the picture before he arrive at San Francisco. They were taken in front our new GENKAN and parlor. The entrance was completely new as you see. The parlor is just large enough for us now. They are just looking like a foreign house.

Henri left Fukuoka for Tokyo last Wednesday afternoon by himself alone. Mother and Julia have been to the station to see him<sup>off</sup> there. He says he is leaving Japan <sup>on</sup> June 5th on JAL. I think he will tell you of our family and others. He was always busy on his business in Tokyo and other cities. May the Lord b<sup>l</sup>ess you and your work. Yereshiku to Pinkey and Norman.

Yours

Rev. O. Takahashi
