To Whom It May Concern:

I have not contacted you before and I am not sure how much help we can be to each other but I would like to make a request.

My name is Sherry Prindle and I am co-ordinating a 90-minute television documentary to be broadcast next February nationwide in Japan on the Japan News Network. The program will center on the theme of U.S.-Japan relations at the human level.

For our purposes we are seeking people and organizations whose lives and activities can be filmed and shown as a representation of the status quo of the U.S.-Japan relationship as lived by those concerned. Since yours is a foundation dedicated to contributing to the future of the United States while having a deep tie to international understanding, it seems reasonable that a person like the one we are looking for is involved in your foundation.

An active well-rounded person with many facets to his/her personality and well-defined opinions about his/her involvement in Japan and the U.S. and its implications in the larger picture of international relations. We intend to film sometime between now and the first of the year so we would arrange our trip to the United States to fit the chosen person's schedule.

This is a chance to share a success story, to lead others who are also involved in the perpetuation of the U.S.-Japan relationship, to air grievances and to promote your organization. If you have anyone in mind please refer us to them or give us information as to how to contact them. Anyone who comes to mind would be appreciated and we can decide from those recommended.

This could be a mutually advantageous project and I hope we can make it work. I would appreciate any contact you wish to make to the press section at the above address in English or Japanese or by telephone 81-92-713-2101 or fax 81-92-713-2127 to Takashi Yamada or myself.

I appreciate your consideration of our request.

Sincerely,

Sherry Prindle (092) 526-2872
Assistant Director
