

Washington's
Birthday—

Dear Tami & Henri,

With no further ado — I'm going to be married the first week of April!! This will not be shocking to you, Henri, as you always are a bit on the psychic side and probably had it all figured out before I did (hope you placed a bet).

It gives me a big lump in my throat when I think I won't be returning to San Francisco for a while, and I'll miss everything and every body in and around Takahashi a great deal. Saw a hearth broom yesterday on Beacon Street and did a little. Thank you so very much for all the opportunities you have given me and the loyalty and responsibility I have always

H.

received. I don't want this to sound like a Swan Song but do want you to know how grateful I am. We'll be living in Boston until Spring 1967 and if you conjure ~~and~~ any brilliant ideas for Eastern enterprises I'm at your beck & call. Haven't really felt out the area yet and don't know yet what lurks under the Ivy Cloak. We did go by a few shops however and my impression is that there is very little dynamic energy around — This is really 'ye olde Englande' and it needs some fresh ideas other than academic. This I will go into in late April.

How did the Chicago show tally? We did not see a lot of our accounts in Chicago so hope that Johann can follow through on these

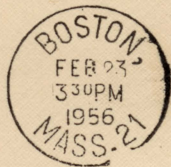

places and more - this assuming that you have definitely committed yourselves on the boys, and I hope you have - they are genuine in their regard for Takahashi and will do a fine job if they channel their unbound energy into representing you. Tami and I share an equal enthusiasm for them, I think.

There are so many things I would like to say, but will hold it for a more sane state of mind - I'm on Pink Cloud

No. 27

Love, Karen
