Dear Mrs. T. Takahashi,

It is a great pleasure to receive your Xmas Card of 1981 just after my return from Canada in January.

My wife and I have been in Canada from July 1980/Jan.1981 to visit our four children (three sons and a daughter) now living there. Francis, a project engineer, is living with family in Hamilton (Ontario), Frederick, medical doctor, with family in Parry Sound (Ont.), Orlando, a pharmacist and also a medical student in Delhousie University in Halifax, N.S. and Lucy, M.B.A, married working ~~M.A.~~ G.M., living in Whitby (Ont). We have been living with them alternatively.

In last winter we had to stand the coldest weather that we never experienced before with the temperature 0.40 cent. In fact, my wife and I have never seen the snow before.

We intend to call on our children again next spring of 1982 and this time we will go to Canada via San Francisco. By then we shall pay you a visit and also a visit to our old friend Mr. A.Dere in Alameda. So, will you please let me know your telephone number so that I may phone you after our arrival in San Francisco.

Meanwhile, we are looking forward for your visit in this spring. In Hongkong, you may call on my son Andrew or his wife Betty whom you have met before. In Macau, just look for the above letter head. Tel. no in H.K. is K-671380

We are doing a considerable business in export to France, Germany, Portugal and U.S.A. and I think that some of our products might interest you too.

My wife sends her best regard to you and also joins me to wish you a "Kung Hey Fat Choy" a traditional saying in chinese new year although has already passed.

Sincerely,

Jose M. Hung
