

6 December, 1965

Mrs. Masako Suzuki

Dear Martha -

It has grown very cold in San Francisco lately--45 degrees. I imagine it must be much colder in Tokyo. Please take care of yourself and don't catch cold.

Risuke-san went fishing at 5:30 in the morning yesterday with Joe-- he caught two hugh fish, that totalled more than 25 pounds between them and filled the refrigerator. We took it over to Lew's and perhaps get a piece later. */ was 16# 1@9#*

RADIO METER! What's going on with this matter? I wanted to phone or cable about it, I want some action and RESULTS. It makes NO DIFFERENCE who manufactures the radio meters if we can get them. We desire the European-style sample. The diameter of the round balls should be approximately 3 inches. If you think that research or experimental laboratory glass blowers can do a better job, take it there.

I am anxiously awaiting good news and hoping you can join us for Christmas.

Lots of love,

Tami

DEAR AUNT MARTHA,

I'M LOOKING FORWARD TOWARDS SEEING YOU AGAIN. PLEASE COME AND SPEND THE XMAS HOLIDAYS WITH US. RIGHT NOW IT'S A BIT HECTIC, WHAT WITH THE NEW STORE OPENING AND ALL, BUT IT'S WORTH THE TROUBLE.

PLEASE DON'T FORGET THE LIQUID EYE-LINER THAT PEELS OFF WHEN DRY. THEY'LL MAKE GREAT ^{XMAS} GIFTS TO SOME GIRLS I KNOW. SEE YOU IN A FEW DAYS? HOPE SO.

Love,

Norm
